Bella Forrest has a truly amazing mind and has done it yet again. As a fan of her other books, I jumped at the chance to read this book and I am so happy I did. Another book that I had a hard time attempting to put down. (Ahh, but the kiddo needed supper, lol) The Gender Game had an interesting dystopian world. The women live in the country of Matrus. The country ruled by women, and where the men have a very limited ability to do much of anything. The men are there to be a force of labor and only a select few are given the ability to have an education. The men live across the toxic river in the country of Patrus, the country ruled by men and where the women are essentially nothing more than a household pet. The women don’t leave the home, or really do anything without prior approval from their husbands. While learning about the different countries you also begin to learn the story of Violet. The first couple chapters of the story give you insight as to why Violet has been bounced from one disciplinary home to another, and eventually what has lead to the events that make up the bulk of the book. After a final "strike" on Violet’s record she is given the chance to keep her life if she were to go undercover in Patrus with her fake "husband" Lee. There is also an underlying love story that I was beyond pleased with. It wasn’t a "love triangle," forced, rushed, or made unbelievable. It was strong, and passionate, but only took up a rather small portion of the book. The rest is about the growth of a young girl, how she comes into her own, and does what needs done for the benefit of the country.
